Coach Potential Program

Discovering aligned leadership

Maximizing potential as a leadership skill

The current day and age asks for leadership and collaboration, in which new ways of thinking and being are invited. Where connections are formed from authentic Selves, where courageous choices are made in alignment with this essence, where empowerment to use all your potential is the norm, and where creative solution spaces are opened in collaboration. Deeply human, interacting with other intelligence.

The Coach Potential Program (CPP) equips leaders with transformational presence, a growth mindset, relational wisdom and coaching skills at the highest level. And we develop professional coaches and facilitators to the next level of impact.

It is a profound and delightful personal transformation journey.
And it is a structured, creative and personalized coach training program.

Ever asked yourself one of the following questions?

- How do I experience more peace, energy, flow, joy, and fulfillment?
- How do I take conversations to the next level and build relationships based on mutual acceptance and respect?
- How can I discover, express and use more of 'me'; by including for instance my emotions, physical wisdom, intuition, sensitivity and 'unique colour'?
- How can I create results with a bigger or more meaningful impact?
- How does synchronicity work?
- How can I support others to maximize their potential?
- How can I serve others by doing something I really enjoy?

What all of these questions have in common is that they require the ability to fully be yourself, while relating to others in an empowering way. This challenging balance opens the door to a range of new options, solutions and possibilities.

The key to finding this balance is a deeper level of self-awareness, presence and consciousness. Our personal alignment work allows you to explore and develop this, finding new embodied ways of being.

It also requires a different kind of relating, including interpersonal communication skills. Our training gives you the foundation and framework you need to get to that level of interaction.

Our style of transformative coaching

We invite you to explore your own authentic style of transformational coaching. We offer you several ways in, so you can find what works for you.

First, we base our coaching on the solid foundation of the core competencies from the International Coaching Federation, such as active listening and evoking awareness.

Second we offer you the YINX competencies of transformation and empowerment, such as alignment, self care, attunement, transformational presence, holding space and setting boundaries. Our theoretical framework connects science and spirituality and is rooted in:

Neuroscience

Taoism

Mindfulness

Positive psychology

Energy work

Change theory

What CPP-graduates said about their experience

Vincent Timmers (44)

Partner Ebbinge

'The Coach Potential Program brought me a higher consciousness level; I am more aware, of both myself and the interaction with others, which allows me to choose my actions. I connect on a deeper level, and I have the tools to quickly get to the essence in conversations.'

Becky Nascimento (40)

Founder & Former Marketing Director

'I signed up to the CPP after achieving the ICF ACC and wanting to continue to improve my skills as a coach; I wanted to be able to conduct my coaching at a deeper level. What I have experienced as a person is a much greater level of transformation than I could have expected. I am more grounded, and connected to myself than before; this in turn, has supported the transformation of my coaching skills.'

Jan van der Lee (54)

Lead Climate Agreement Program at TenneT

'I started this program with leadership goals: I wanted to be more present for and with my team. Become better at delegating, supporting and equipping my team to do it themselves. And I wanted to trust my gut feeling, and experience more energy, joy and freedom for myself at work. Looking back, I have achieved all these goals. And... as a bonus, I learned how to conduct a coaching conversation on a professional level. Something I turned out to really enjoy'

Mia Wessels (29)

M.D., Keynote speaker, Coach/therapist

'The CPP has been one of the most valuable and impressive experiences in recent years. In addition to a full training as a coach, I have developed as a person and made major decisions that I am now reaping the benefits of. It felt like a transformation to an authentic life.'

This is about personal leadership and team membership
About speaking your truth and listening to others
A perfect balance between I and WE. It's about US

Possible: yes. Easy: not per se.

That being true to yourself resulted in standing alone
or that you couldn't show all of you in order to fit in

But if you are willing to put in effort to experience effortlessness
You are right about to enter a new chapter in connecting....
With yourself and with others

It's your journey, your story, your future
We offer personal support, guidance, transformational coaching,
leadership and team development, theory and proven tools.

Are you ready to live your true potential?
To be the leader you know you are?
To collaborate using deep connections?

Let's make magic together!
